Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown  
Comments:

Is the evaluated use attainable? ☐ Yes ☒ No

Comments: The UAA was conducted in July 2005 and no WBCR was observed. The stream does not meet the maximum and average depth criteria in any of the 3 sites that were evaluated. Therefore, the committee recommends removing the WBCR designation. There was evidence of human use and children were observed wading in the creek, so Secondary Contact Recreation use is recommended.

**Committee Recommendation:** ☐ Retain Use ☐ Modify Use ☒ Remove Use ☐ Inconclusive
